Designed by Angela Dooley of SASS Crochet

This is the expanded, ad-free **Candy Corn Decoration** crochet pattern.

This fun fall decoration is worked using a combination of single crochet and the textured Link Stitch, then assembled from two crocheted triangles for a lightly stuffed finish. Make it as a classic candy corn, or add the optional face, arms, and legs to give your candy corn a little extra personality.

Perfect for Halloween and autumn decorating, this quick project is a fun way to add a handmade touch to your seasonal décor.

Construction

The Candy Corn is made by crocheting two matching triangles from the bottom up. The triangles are placed together and joined around the outside with a single crochet border, then lightly stuffed before closing.

Stitch Pattern

Link Stitch — a beginner-friendly Tunisian-inspired crochet stitch used within the triangle to add texture between the single crochet rows.

Helpful Tutorial

Need help with the Link Stitch?

The Link Stitch is sometimes considered a beginner Tunisian-style stitch because of the way loops are picked up through the horizontal bars of the previous stitch. A step-by-step Link Stitch photo tutorial is included later in this pattern. If this stitch is new to you, review the tutorial on pages 5–7 before working your first Link Stitch row.

Stitch Key

- **ch** = chain
- **dec** = decrease
- **LS** = Link Stitch
- **rep** = repeat
- **sc** = single crochet
- **sk** = skip
- **slst** = slip stitch
- **st** = stitch
- **YO** = Yarn Over

Pattern Notes

- Written in US crochet terms.
- Chain stitches at the beginning of rows do not count as stitches.
- Stitch counts are listed only on rows where the stitch count changes.
- The Candy Corn is worked from the bottom up.
- Two matching triangles are crocheted and then joined with a single crochet border.
- The front side of the Link Stitch should face outward when the two triangles are joined.
- This pattern uses the Link Stitch. Review the included Link Stitch photo tutorial before beginning if needed.
- Gauge is not essential for this pattern.
